SUMMARY

Network and systems technician with a Network+ certification and hands-on lab experience from a 2-year IT program. Comfortable racking hardware, configuring switches, and troubleshooting end-user issues. Looking for a junior network admin or IT support role where I can grow into infrastructure work.

EDUCATION

San Jose City College — AS, Computer Network & Information Technology

May 2024

GPA: 3.6 · Dean's List 3 semesters

- Capstone: designed and built a 3-VLAN small-office network in lab, including DHCP, firewall rules, and a Windows AD domain
- Relevant coursework: Cisco routing fundamentals, Linux system administration, network security, Windows Server administration, scripting with PowerShell and Bash

CERTIFICATIONS

- CompTIA Network+ — June 2024
- CompTIA A+ — November 2023
- Cisco Certified Network Associate (CCNA) — in progress, exam scheduled August 2024

TECHNICAL EXPERIENCE

IT Support Intern

Jun 2023 — Aug 2024

BayArea Property Group · San Jose, CA

- Handled tier-1 help desk tickets for ~80 staff across 4 offices using Freshservice; closed average of 12 tickets per day
- Imaged and deployed 30+ Windows laptops using MDT, including domain join and standard software baseline
- Replaced an aging Ubiquiti access point setup with a Meraki MR mesh in two offices, working under the senior network admin
- Wrote internal runbooks for printer setup, VPN troubleshooting, and new-hire onboarding that are still in use

Lab Assistant — Networking Lab

Aug 2022 — May 2024

San Jose City College · San Jose, CA

- Assisted instructor and 30+ students with Cisco packet tracer and physical lab work (switches, routers, patch panels)
- Maintained inventory of lab equipment and re-imaged lab machines between cohorts

OTHER WORK

Barista

Mar 2021 — Jul 2023

Philz Coffee · San Jose, CA

- Trained 4 new hires on POS and drink-build standards while working full-time during the first year of school
